

## INTRODUCTION

This course will empower Project Managers (PMs), especially those with limited or no prior training in BIM modelling, to confidently oversee a BIM workflow, participate in discussions about BIM and other digital transformation initiatives, and review 3D models independently.

This course has been developed for the next-generation project managers who want to progress further in this digital age. Exposure to BIM will enable project managers to gain efficiencies and boost collaboration in their projects.

## COURSE OBJECTIVES

- Gain confidence and ability to coordinate and manage BIM projects effectively
- Confidently review BIM models independently

## REGISTRATION

To register (course code CPAPM000), scan this QR code or visit [www.constructionprofessionals.com.sg/course-index](http://www.constructionprofessionals.com.sg/course-index)

## WHY YOU SHOULD CHOOSE CPPL

Construction Professionals Pte Ltd (CPPL) is Singapore's longest serving infrastructure and building construction professional organisation. We are committed to the highest standards for our people, our industry, and our communities.

As an Autodesk Authorised Training Centre (ATC), CPPL is cultivating the next generation of AEC professionals with the most advanced learning and development courses.

## KEY COURSE INFORMATION

- 4-half day training (9:30am-12:30pm)
- CPPL Training Centre at I North Coast
- As CPPL is an e2i-supported training provider, NTUC union members are eligible for UTAP training fund
- Course structure of BIM for Project Managers include:
  - Use of BIM in the built environment industry
  - Understanding the role of BIM in project delivery and project management
  - Key terms in emerging technologies e.g. Common Data Environment (CDE)
  - Basics of a BIM Execution Plan
  - Half-day hands-on practical experience using a BIM software to review 3D models

## ASSESSMENT AND AWARD

Participants who meet the attendance requirement will be awarded a *Certificate of Completion*.

## WHO SHOULD ATTEND THIS COURSE

Recommended for project managers who have limited or no prior BIM modelling experience.
